

What is SARE?

Since 1988, the Sustainable Agriculture Research & Education (SARE) program has been the go-to USDA grants and outreach program for farmers, ranchers, researchers and educators who want to develop innovations that improve farm profitability, protect water and land, and revitalize communities. To date, SARE has awarded over \$6.0 million to more than 199 initiatives [1].

SARE is grassroots with far-reaching impact

Four regional councils of expert practitioners set priorities and make grants in every state and island protectorate.

SARE communicates results

SARE shares project results by requiring grantees to conduct outreach and grower engagement; and by maintaining an online library of practical publications, grantee-produced information products and other educational materials.

SARE: Advancing the Frontier of Sustainable Agriculture in...

Illinois

Project Highlight: *Heirloom Corn Varieties for Spirit Production*

Farmers are increasingly seeking innovative ways to diversify their crops and tap into new markets, and a recent project led by farmer Will Glazik and the IDEA Farm Network in Illinois is demonstrating how heirloom corn could unlock exciting opportunities. Glazik's \$17,530 NCR-SARE Farmer Rancher project explored the potential of growing heirloom corn varieties, such as Bloody Butcher, Wapsie Valley, and Hopi Blue, specifically for craft spirits production.

Using chemical analyses and blind taste testing, Glazik's project identified the distinct characteristics that each heirloom corn variety imparted to the spirits. The results showed that certain heirloom varieties had the potential to create unique flavor profiles that could differentiate small-batch distillers from mass-produced spirits. For farmers, this means new avenues for selling their crops to local distilleries that are looking to create one-of-a-kind products.

The project's impact extends beyond just growing and distilling. By engaging local farmers and distillers through networks like the Artisan Grain Collaborative and ReGenerate Illinois, the project shared valuable insights and encouraged the adoption of heirloom corn in spirit production. Presentations at Midwest grain conferences and distillers guilds helped farmers see the potential for diversifying their crops and tapping into a growing market for locally sourced, craft spirits.

"While talking to distilleries, there is a lot of interest in the outcomes of this project," said Glazik. "Many distillers are interested in making the best whiskey possible and are wanting to purchase local grains directly from farmers."

For more information on this project, see sare.org/projects, and search for project number **FNC20-1219**.

SARE in Illinois

northcentral.sare.org/state-profiles/illinois/

\$5,991,640
in total funding

199 grant projects

(since 1988 [1])

SARE in Illinois, 2020–2025

This is a summary of recent SARE-funded activities and impacts in the state. To search all SARE projects visit projects.sare.org. For a list of all projects in Illinois visit projects.sare.org/state-fact-sheets/.

Grants awarded

Total awards: **64 grants**

- 19 Farmer/Rancher
- 3 Research and Education
- 6 Professional Development Program
- 8 On Farm Research/Partnership
- 10 Graduate Student
- 15 Youth Educator
- 2 PDP State Program [2]
- 1 Community Foods Project

Total funding: **\$2,571,537**

- \$268,493 Farmer/Rancher
- \$642,948 Research and Education
- \$389,894 Professional Development Program
- \$361,077 On Farm Research/Partnership
- \$149,369 Graduate Student
- \$74,570 Youth Educator
- \$269,994 PDP State Program [2]
- \$415,192 Community Foods Project

[2] The Professional Development Program (PDP) State Program is a non-competitive award that funds the activities of the state coordinator(s). See more below.

Farmer and rancher impacts

SARE grantees have reported the following impacts from their projects:

7,539 farmers participated in a SARE-funded project

1,648 farmers reported a change in knowledge, awareness, skills or attitude

913 farmers changed a practice

Learn about local impacts at: northcentral.sare.org/state-programs/illinois/

Contact Your SARE State Coordinator

SARE sustainable ag coordinators run state-level educational programs for Extension and other ag professionals, and many help grant applicants and recipients with planning and outreach. Visit northcentral.sare.org/state-profiles/illinois/ to learn more.
