

What is SARE?

Since 1988, the Sustainable Agriculture Research & Education (SARE) program has been the go-to USDA grants and outreach program for farmers, ranchers, researchers and educators who want to develop innovations that improve farm profitability, protect water and land, and revitalize communities. To date, SARE has awarded over \$309 million to more than 7,407 initiatives.

SARE is grassroots with far-reaching impact

Four regional councils of expert practitioners set priorities and make grants in every state and island protectorate.

SARE communicates results

SARE shares project results by requiring grantees to conduct outreach and grower engagement; and by maintaining an online library of practical publications, grantee-produced information products and other educational materials.

SARE: Advancing the Frontier of Sustainable Agriculture in...

Iowa

Project Highlight: *Optimizing Organic Oat Production and Profitability*

Organic corn and soybean growers in Iowa often plant small grains as a third crop for a variety of benefits. Small grains can provide grain or straw for on-farm use or sale, help disrupt ground pest and disease life cycles and more evenly distribute farm labor over the cropping season.

Oats is a common small grain, yet Iowa farmers hesitate to plant this crop because a combination of inferior price, yield and grain quality makes it less profitable than corn and soybeans. To make oats a more viable option, Iowa State University graduate student David Weisberger used a SARE grant to generate much-needed data about simple low- or no-cost management strategies involving an oat rotation.

Weisberger used station research and trials on seven farms to explore questions with respect to oat yield, test weight, forage legume biomass and weed biomass. Weisberger's on-farm trials quantified the effects that practices such as crop density and planting date can have in oat production. This gives farmers an honest assessment of both the potential opportunities for management improvements, as well as the limitations that farmers may face with growing oats. Weisberger's outreach included workshops, tours and publications that reached at least 250 farmers.

For more information on this project, see sare.org/projects, and search for project number [GNC15-216](#).

SARE's Impact

53 percent

of producers report using a new production technique after reading a SARE publication.

79 percent

of producers said they improved soil quality through their SARE project.

64 percent

of producers said their SARE project helped them achieve higher sales.

Learn about local impacts at:

northcentral.sare.org/state-programs/iowa

Contact Your SARE State Coordinator

SARE sustainable ag coordinators run state-level educational programs for Extension and other ag professionals, and many help grant applicants and recipients with planning and outreach. Visit northcentral.sare.org/state-pages/iowa to learn more.

For detailed information on SARE projects, go to
www.SARE.org

SARE is funded by the USDA's National Institute of Food and Agriculture (NIFA).

This report includes summaries of competitive grant programs only. Some competitive grant programs that are no longer offered may be included or excluded from the totals in this report depending on the grant program and SARE region.

AGRICULTURE PROJECTS FUNDED IN IOWA

by USDA's
Sustainable Agriculture Research and Education (SARE) Program

Iowa has been awarded \$8,292,043 grants to support 214 projects, including but not limited to, 53 research and/or education projects, 24 professional development projects and 85 producer-led projects. Iowa has also received additional SARE support through multi-state projects.

RESEARCH AND EDUCATION GRANTS

GNC13-176	Suitability of Winter Canola (Brassica napus) for Enhancing Summer Annual Crop Rotations in Iowa	\$10,000	Dr.Mary Wiedenhoeft Iowa State Univ Rafael Martinez-Feria Iowa State University
GNC12-156	Needs Assessment for the Establishment of Food Hubs Using Geographic Information Systems	\$9,902	Dr.Cynthia Haynes Iowa State University Jennifer Boussetot Iowa State University Kevin Duerfeldt Iowa State University

GNC10-119	Evaluating Canola and Winter Cover in Alternative Cropping Systems in Iowa	\$9,922	Dr.Mary Wiedenhoeft Iowa State Univ Stefan Gailans Iowa State University
GNC10-132	Relationships Between Cucurbit Crop Pollinators and Landscape Diversity	\$10,000	Dr.Mark Gleason Iowa State University Amy Alesch Iowa State University
GNC10-136	Evaluating Methods for Making Native Plants Productive and Profitable on the Iowa Landscape	\$9,979	Dr.Mary Wiedenhoeft Iowa State Univ Rachael Cox Ohde Iowa State University
GNC09-103	Producer Education of Nitrate Reduction Strategies and Evaluation of Acceptance	\$9,953	Dr.Matthew Helmers Iowa State University Dr.Laura Christianson University of Illinois
GNC09-105	Farming for Ecosystem Services: Visualization of Alternative Working Landscapes	\$9,997	Dr.Lisa Schulte Moore Iowa State University Drake Larsen Iowa State University
GNC09-107	Incorporating Native Prairies into Working Farm Landscapes	\$9,965	Emily Heaton Dr.Matt Liebman Iowa State University Meghann Jarchow Iowa State University
GNC09-111	Corn Residue Removal Impacts on Soil, Water, and Air Resources for Biofuel Production	\$10,000	Dr.Mahdi Al-Kaisi Iowa State University Jose Guzman Iowa State University
GNC09-112	Extended-duration row covers to suppress bacterial wilt on muskmelon: optimizing a new management strategy for organic growers	\$9,976	Dr.Mark Gleason Iowa State University Erika Saalau Rojas Iowa State University
GNC08-089	Farm to ISU: Helping Iowa State University Dining Staff Understand and Grow the Local Food Purchasing Program	\$9,132	Shashi Sathisan-Nambisan Iowa State University Susan DeBlieck Iowa State University
GNC07-078	Energy use and nutrient cycling in pig production systems	\$9,969	Mark Honeyman Iowa State University Peter Lammers Iowa State University
GNC07-085	Small Meat Lockers Working Group	\$9,131	Dr.Cornelia Butler Flora Iowa State University Arion Thiboumery North Central Regional Center forRural Development
GNC06-060	New Partners for Sustainable Agriculture	\$10,000	Dr.Nancy Grudens-Schuck Iowa State University Jean Eells North Central Regional Center forRural Development
GNC06-061	Emission of the greenhouse gas nitrous oxide (N2O) from riparian forest buffers, warm-season and cool-season grass filters and crop fields.	\$9,990	Richard Schultz Iowa State University Dong-Gill Kim Iowa State University
GNC05-041	Agricultural Landscape Design through Participatory Modeling: Collaboration among Diverse Stakeholder Groups	\$9,998	Dr.Lisa Schulte Moore Iowa State University Ryan Atwell Natural Resource Ecology, Iowa State University

GNC05-049	Assessing the Feasibility of Entry into Entrepreneurial Agriculture for Recent Immigrants in Marshalltown, Iowa	\$6,891	Dr. Jan Flora Iowa State University Hannah Lewis Iowa State University
GNC05-055	Illinois bundleflower: a perennial multiple purpose third crop for Iowa	\$9,962	Dr. E. Charles Brummer University of California - Davis Valentin Picasso University of Wisconsin - Madison
GNC04-029	Transferring Information from Research lab to Farm Field: Evaluation of On-Farm Soil Quality Tests Kits for Grower Use in Sustainable Strawberry Production	\$9,988	Gail Nonnecke ISU Horticulture Department Craig Dilley ISU Horticulture Department
GNC03-013	Restoring Organic Agri-Culture: Resource Conservation, On-Farm Recycling, and Alternative Marketing Taught through Farmers and Farm Organizations	\$9,594	Ricardo Salvador Parker Forsell Iowa State University
GNC03-018	Developing Educational Tools to Facilitate Systems Thinking in Sustainable Agriculture in the North Central Region	\$9,862	Dr. Matt Liebman Iowa State University Andrew Heggenstaller Iowa State University
GNC03-022	Are Livestock Grazing and Healthy Streams Compatible? Livestock Grazing Systems that Reduce Erosion and Improve Stream Bank Stability	\$10,000	Richard Schultz Iowa State University George Zaines Iowa State University
GNC02-007	Effect of Alternative Fungicides on Alternaria solani Control and Productivity of Organic Tomatoes	\$7,500	Hank Tabor Kathleen Delate Iowa State University Karen Joslin Warren Wilson College

ON FARM RESEARCH/PARTNERSHIP GRANTS

Project #	Project Title	SARE Support	Project Leaders
ONC20-070	Full Trucks for Higher Profits: Transportation Collaboration among Farmers and Food Hubs in the Midwest	\$39,930	Jason Grimm Iowa Valley RC&D
ONC20-071	Seed Rematriation Using a Participatory Conservation Model	\$40,000	Philip Kauth
ONC19-055	SILT Development and Implementation of Iowa Landowners Guide to Sustainable Food Crops	\$33,365	Suzan Erem, Ms. Sustainable Iowa Land Trust (SILT)
ONC19-056	Hazelnut-Finished Pork in the Upper Midwest: A New High-Value Product From A Sustainable Production System	\$39,777	Jason Fischbach Bayfield County UW-Extension
ONC19-059	Women farmland owners as sustainability ambassadors: educating farmers and other landowners to make changes	\$39,832	Ahna Kruzic
ONC17-031	Agronomy in the Field: A Women's Cohort for Increasing Capacity of Agronomic and Conservation Principles	\$29,999	Angela Rieck-Hinz Iowa State University
ONC16-013	Collaborative Food Supply Chains for Iowa's Farmers	\$30,000	Jason Grimm Iowa Valley RC&D

YOUTH EDUCATOR GRANTS

Project #	Project Title	SARE Support	Project Leaders
-----------	---------------	--------------	-----------------

YENC20-153	Establishing an Uncommon Orchard with Native Plant Understory	\$4,000	Mark Quee Scattergood Friends School
YENC18-125	Paddocks, Pastures and People	\$2,000	Amy Powell Iowa State University / Extension and Outreach
YENC18-132	Ag Arts Partnership for Southwest Iowa	\$2,000	Mary Goettsch Golden Hills RC&D
YENC17-114	Fun With Food Summer Camp for 9-12 year olds at Central College in Pella, Iowa	\$2,000	Thomas Johnson Central College
YENC15-092	Erosion Control and Pollinator Habitat through Perennial Plantings on Scattergood Friends School Farm	\$1,991	Mike Severino Scattergood Friends School
YENC14-077	Integrating High Tunnel Vermicomposting in a High School Science Curriculum	\$2,000	Mark Quee Scattergood Friends School
YENC12-043	Expanding the Sustainable Agriculture Components of Real Soil, Real Food, A Real Difference	\$2,000	Diane Weiland The Wallace Centers of Iowa
YENC12-045	Shiawassee Camper's Sustainable Garden and Sustainable Agriculture Education	\$2,000	Andrea Wendt Shiawassee Conservation District Melissa Higbee Shiawassee Conservation District
YENC10-023	Green Manure vs. Brown Manure in an Organic Vegetable System	\$1,991	Mark Quee Scattergood Friends School
YENC09-022	Sustainable Food Production Education at a Youth Residential Treatment Center	\$2,000	Belinda Meis Lutheran Services in Iowa, Beloit
YENC08-006	Taproot Sustainable Farming Experience for Children	\$1,560	Zac Wedemeyer Taproot Nature Experience

**Total funding from the USDA SARE program to
Iowa
\$8,292,043**

For further information on projects, contact North Central SARE at (612) 626-3113 or ncrsare@umn.edu.

Sustainable Agriculture Research and Education (SARE) is funded by USDA's National Institute of Food and Agriculture (NIFA).
